SEEDLINGS, AND MORE SEEDLINGS

Mr. Derek Spence, an AHS member of Saint Ann's Bay in Jamaica, has gone into the production of Hibiscus seedlings in a big way. He has seedlings all the way from just sprouting to over eight feet tall. He has thousands of them. See photo on page 27.

Mr. & Mrs. James Monroe spent a fabulous week at Kitty and Derek Spence's home, High Hope Estate, in Jamaica this summer. Their grounds are a mass of Hibiscus color, both named varieties and his seedlings. Each morning Derek and Jimmie would make a tour of the seedling plantings to see if a new one had opened. It it showed promise a color photo was taken, if it was no good the plant was discarded.

The Monroe's were taken on sightseeing trips, swimming on beautiful private beaches, wined and dined on rum punch and akee and breadfruit, and many other exotic native dishes, until they hated to go home.

Thank you, Kitty and Derek, for a very wonderful week.
